FRONT END DEVELOPER

As a passionate and highly motivated front-end developer, I'm excited to embark on my journey in the world of web development. I bring a solid foundation in HTML, CSS, and JavaScript, along with a strong desire to learn and grow in this dynamic field. My goal is to create visually appealing and user-friendly websites that deliver exceptional user experiences. I'm eager to collaborate with experienced professionals, contribute my skills to meaningful projects, and continuously enhance my coding expertise.

HANDS ON - PROJECT

ONLINE COURSE RESERVATION SYSTEM

MAR - APR 2024

- Created a responsive user interface using HTML, CSS3, and Bootstrap, ensuring a clean and user-friendly experience for course registration and management.
- Collaborated with designers, back-end developers, and project managers to successfully develop and launch the Online Course Reservation System.
- Achieved a 40% reduction in booking processing time, improving system efficiency and user experience.

WEBSITE FOR SMART RESUME BUILDER

MAY - JUN 2024

- Developed a Smart Resume Builder web application to simplify and streamline the resume creation process.
 - Built using HTML, CSS, JavaScript, Node.js, and MongoDB for full-stack development.
 - Designed an intuitive user interface for effortless resume crafting, reviewing, and customization.
 - Enabled real-time previews and selection of pre-designed templates for professional resumes.
 - Implemented functionality for downloading resumes in a clean, professional format.
 - Ensured data persistence with MongoDB for efficient management of user inputs.
 - Improved user experience by saving time and enhancing job search success with polished resume generation.
-

INTERNSHIP EXPERIENCE

TALENTSHIP

JAN - PRESENT 2025

FRONT END DEVELOPMENT

- Designed and developed a dynamic, responsive web applications using HTML, CSS, JavaScript, React, and Bootstrap.
- I've worked on various projects, such as e-commerce websites React to create interactive and user-friendly interfaces.
- Currently, I am expanding my knowledge by learning backend development with PostgreSQL, TypeScript, and the PERN stack (PostgreSQL, Express, React, Node.js) to build full-stack applications.

CODE APLHA

SEP - OCT 2024

FULL STACK WEB DEVELOPMENT

- Designed and developed a Multiplayer Gaming and Social Media Platform for real-time interactive engagement.
- Implemented features like chat, friend requests, and activity feeds to enhance communication and connectivity.
- Built using HTML, CSS, and JavaScript, ensuring responsiveness and a visually appealing interface.
- Focused on delivering an immersive user experience with seamless functionality.
- Combined gaming and social interaction to create a dynamic and engaging environment.

CODSOFT

AUG - SEP 2024

WEB DEVELOPMENT

- Designed and developed a responsive website to showcase an interior design portfolio.
- Highlighted design projects, services offered, and client testimonials.
- Emphasized a clean and modern aesthetic to align with the brand's identity.
- Implemented using HTML for structure and CSS for styling, focusing on visual appeal and user experience.

EXPOSYS DATA LABS

JULY - AUG 2023

DATA SCIENCE

- Implemented and compared various regression algorithms on a dataset.
 - Evaluated model performance using metrics like RMSE, MAE, and R^2 score to identify the best-performing model.
 - Enhanced skills in data preprocessing, model construction, and evaluation.
 - Gained a deeper understanding of regression techniques and predictive analytics.
 - Acquired hands-on experience in solving real-world data problems effectively.
-

ACHIEVEMENT

- Received the shield as subject topper in my SSC from the Avadi MLA and Member Of Parliment S. M. Nasar.
- Received Momentous for the participating in YOGA events.
- we have participated on the Smart India Hackathon 2024 from 11th december-15th december on IIT roorkee and received shield and certificate on the hardware edition.

EDUCATION

B.E -CSE
